The Smart All-in-One Android POS Display for Modern Retail Counters

The Bonrix BNX 151TCT brings a large 15.6" Full-HD touch screen to your billing counter and works three ways at once – collecting digital payments, playing your promotions, and showing the customer their bill. One device replaces three.

Dynamic QR Code Display

Show a live, amount-specific QR code for instant **BHIM UPI** payment collection. The QR updates with each bill, so customers simply scan and pay – fast, contactless and reconciled in real time.

Digital Signage for Advertisement

Between transactions, the big Full-HD screen turns into a vibrant **advertising display** – loop product images, offers and videos via USB autoplay or optional cloud signage software to boost in-store sales.

Customer-Facing Display for Bill View at POS

Build trust at checkout by letting customers **see their bill** line-by-line as it is created at the POS. Item names, quantities and the final payable amount appear clearly on the customer side of the counter.
